Public-Private Partnership (P3) & Sponsorship Application Rubric

Considerations	Tier		
	1st Priority	2nd Priority	3rd Priority
Identified regional needs*	Program proposal identifies and seeks to meet needs specific to its geographic region(s). Plan for doing so is well-researched, thorough, and sustainable.	Program proposal identifies regional needs. Plan for meeting these needs may be unclear, incomplete, or otherwise need improvement.	Program proposal does not identify nor seek to meet regional needs.
Focus on Equity: Impact on underrepresented populations	Program proposal identifies underrepresented populations in STEM to reach with this program, and presents a plan for enhancing or improving access/outcomes for these populations that reflects best practices for impacting these populations.	Program proposal identifies underrepresented populations in STEM to reach with this program. The plan for doing so is unclear or relies on efforts outside of the program organizers.	Program proposal does not have a plan to reach underrepresented populations in STEM, or plan does not include clear efforts at reaching these populations.
Program outcomes scope/reach	Program outcomes scope/reach has a clear plan to focus on depth or breadth- either a high number of people reached with the program, or a detailed plan to achieve higher levels of outcomes, including clear, effective plans to measure outcomes.	Program outcomes scope/reach includes a plan for depth or breadth. The plan to achieve these outcomes may be incomplete or otherwise needs improvement.	Program outcomes scope/reach is absent, unrelated, or unclear from project proposal

*Regional needs will evolve over time as STEM AC gains new and better information. Please do not hesitate to contact us with questions you may have about this process. Identify your region here: https://boardofed.idaho.gov/wp-content/uploads/2018/01/Region_Districts.pdf

Other considerations may include:
- Is this a new/pilot program?
- Is the budget proposal submitted clear and formatted correctly?
- Does this program bring new partners to the table?
